

Maharashtra Local Regulations Checklist

Use this checklist before finalizing the energy audit scope and tender package.

1. Legal and Administrative
 - a. Confirm housing society registration and authorized signatories.
 - b. Verify applicable Maharashtra state and municipal energy-related notifications.
 - c. Maintain latest statutory approvals and NOCs relevant to electrical systems.
2. Electrical Safety and Fire Prevention
 - a. Schedule periodic inspection of LT panels, feeders, and earthing systems.
 - b. Validate breaker coordination and protection settings with certified personnel.
 - c. Record thermographic inspection results for critical electrical points.
 - d. Ensure fire detection, alarm, and suppression systems are functional.
3. Energy Audit Readiness
 - a. Collect 24 months of electricity bills and RMD (Recorded Maximum Demand) data.
 - b. Compile SLDs, load schedules, and equipment inventory.
 - c. Tag high-consumption loads and operating-hour profiles.
 - d. Define baseline KPIs (kWh, kVA demand, PF, DG usage where applicable).
4. Vendor and Documentation Controls
 - a. Appoint BEE-recognized/qualified professionals as required.
 - b. Finalize scope boundaries, exclusions, and deliverables in ToR.
 - c. Keep version-controlled records of meetings, approvals, and revisions.
 - d. Archive final report, recommendations, and implementation tracking sheet.
